

Emergency Response Times - Hazard Class 4

Reporting period: 01 January to 31 March 2022

Hazard Class 4 primarily involves natural surroundings in terms of bush and grassland, but also involves isolated dwellings and structures within those areas.

CFA has service delivery standards, which specify a response time target for a brigade to attend an emergency incident. The service delivery standard (response time) for Hazard Class 4 is 20 minutes.

Community Response

These figures represent the service provided to the community by CFA in an emergency

CFA District	CFA Brigade Area	Number of incidents within the Brigade Area for the reporting period across all Hazard Classes	Number of emergency incidents within the Brigade Area for the reporting period for Hazard Class 4	Number of emergency incidents the standard of 20 minutes was met by any brigade	% of emergency incidents the standard of 20 minutes was met by any brigade	The time in which 90% of emergency incidents were responded to by any brigade
07	Little River	18	13	13	100%	11:39
08	Bunyip	26	11	11	100%	14:27
14	Rockbank	43	10	10	100%	11:39
20	Bamawm Extension	10	10	10	100%	13:58

Footnote:

Brigade Areas that had less than ten emergency incidents have been excluded.

This information does not contain CFA's response to Emergency Medical Response as CFA is a support agency and CFA has no response time targets for these incidents.

Road Crash Rescue has also been excluded as these incidents are subject to different response protocols and service delivery standards.

For the Community Response columns, where the service delivery standard is met by any brigade, this may be from a CFA brigade outside of its own Brigade Area, FRV or SES Unit.
