

Free Training for Community Care Providers

BUSHFIRE SAFETY

Module 1: Bushfire Safety for Workers

This online session is an important OH&S and duty of care (maintaining a safe workplace) activity. It is about ensuring your staff know what do to if caught out in a bushfire and how to stay safe.

Module 2: Bushfire Planning – How to support your clients

For staff who assist clients in their homes. Organisations have a responsibility to support vulnerable clients to undertake personal emergency planning as written into Victorian policy.

*It is recommended that Module 1 is completed before Module 2.

Watch this short video to find out more about the Bushfire Modules.

HOME FIRE SAFETY

Module 3: Prevent Detect Escape - Home fire safety for people at higher risk

For staff who provide in-home care. This module is about fires inside the home. Referral pathways are provided about hoarding and smoke alarm installation.

CFA's free training can be accessed in two ways:

1. Online via e-learning modules www.cfa.vic.gov.au/workers
2. Group-based either onsite or online - through your local CFA office or email communityprograms@cfa.vic.gov.au
