**Footnote:**

Brigade Areas that had less than ten emergency incidents have been excluded.

This information does not contain CFA’s response to Emergency Medical Response as CFA is a support agency and CFA has no response time targets for these incidents.

Road Crash Rescue has also been excluded as these incidents are subject to different response protocols and service delivery standards.

For the Community Response columns, where the service delivery standard is met by any brigade, this may be from a CFA brigade outside of its own Brigade Area, MFB or SES Unit.

For the Brigade Area Response columns, where the brigade responded to less than ten emergency incidents within their own Brigade Area a time cannot be calculated for statistical significance and are represented as NULL.

For the Brigade Area Response columns, figures represent the incidents where the brigade was compliant with the relevant service delivery standard. The remaining incidents may include Code 3 responses to emergency incidents.

For the Brigade Area Response columns, figures may include Code 1 and Code 3 responses to emergency incidents.

This table may contain data for MFB stations responding as a CFA Brigade where MFB has moved up to support a CFA integrated brigade.

**Disclaimer:**

This table is provided for information purposes only. The data is accurate as at 14 Aug 2018 and may be subject to change.
